Dear FCC Representative:

I am writing to let you know how much I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere - not to mention high-quality broadcast service when I travel in the mountains and cross-country. I pay for these services, look forward to future local and national services, and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I pay for, desire, and demand.

Best regards,
Ryan Batty
